## Research and Development of the Student Perceptions of Behavior and Discipline Survey (StPBD)

Understanding student perspectives of behavior and discipline is an important step in planning and implementing multi-tiered systems of support, such as schoolwide positive behavior supports (SWPBIS), particularly in middle and high schools. Using student data to inform these efforts can result in higher staff and student investment along with greater fidelity, quality of implementation, and desired outcomes.

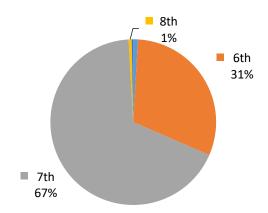

We recommend using the StPBD with the Staff Perceptions of Behavior and Discipline (SPBD) to identify systemic strengths or assets along with potential barriers or areas in need of improvement.

## Responses to open-ended and short answer items

Qualitative data can help explain the quantitative data listed above by providing additional, contextual information. The following items offer more information about students' (a) perceived strengths of the school, (b) perceived ways to improve their school-related experiences, (c) areas of the school in which they may not feel safe and why, (d) knowledge of the schoolwide expectations, and (d) preferred ways of being acknowledged.

## What do you like about this school? [Sample answers provided below. Most deleted to preserve confidentiality]

I like that we don't have to go to lunch if we are not hungry

What I like about my school is that its fun and I like the people around me, I have fun events I like my elective and everything about this school.

I like about this school is that it is big and has a 2 minute bell to get to each class. And because it is a very good learning environment.

What I like about this school is that i have friends and we also have really fun activities. For one activities there is the cona ice

I like that the teacher/staff are somewhat nice they will treat you with respect they encourage me a lot they want nothing but the best for us the school also has some snacks you can buy with your Soar tickets i feel like they make it feel like a safe place they want us to feel safe and how times goes by i feel somewhat safe at school.

I like that the teachers don't give up on you because if you give up the teachers are there to see what is wrong.

What I like about this school is that they are keeping us safe by sending security or polices when there is like serious trouble.

some of the people in it.

That whenever you say something correct or do something right they reward you sometimes.

What I like about this school is that whenever a student needs something teachers or staff always help them.

The one thing i like about this school is my teachers and the teachers i have known since 6th grade.

What I like about this school is the actives we do on special days during school, the electives, the soar cart, the kona ice, assembles, the carnival, field trips, the music and the one minute warning when going to class, and the music during lunch break.

It is a pretty good school and most of the teachers are nice.

I like that teachers show respect to students

What i like about this school is my teachers are very hard working and they all want me to pass so i can go to the the next grade. I also like the sports in after school because they make me want to keep on playing, and play for a professional team.

I like how the teachers try their best to make you feel welcome and safe when you first start school. I also like how you meet new people at this school cause they will most often like the things you like. The work you do in classes is also not that hard for most people and if it is the teachers do the best they can to teach it so everyone can understand.

I like the time we get with our friends after lunch and i love the field trips and i like being able to get rewarded for my soar tickets.

## What would make this school better? [Sample answers provided below. Most deleted to preserve confidentiality]

Something that can make this school better is better food and more field trips. As well as cleaner things like the bathrooms, class rooms also the field and track area could be more took in care .

More discipline would make this school WAY better because kids who get in fights and stuff come back to school the next day, I feel like they should suspend them or expel because its going to keep happening and make a bad image of or school.

The school could be a bit better by not having so much fights because everybody starts crowding up and what other student's are showing them is violence.

The school would be better if we had more security and better chrome books.

I think that the students should listen more. Some students are so bad saying, what I do? They know what they did... The teachers should be strict when it comes to breaking rules and really nice when students are on task... I think that we should have a cleaner campus by choosing people who want to pick up trash to clean the areas. We should also have work buddies. I used to do it in my old school. Some 8th graders will go to 6th grade classrooms and be a tutor by helping a student do their work and be on task. The student would get paid 5 soar tickets a day and every month, some people wouldn't be a tutor anymore so other 8th grader can be one.

One last thing they should do is put up the soccer nets! Once we score, someone has to run and get the ball. Maybe we can us last years older nets! Also there should be a bucket near the goal that has balls in there.

if teacher we a little nicer and we could use our phones. And have fun days get to watch movies, longer lunch. Also if teacher didn't that yell that much.

Something that would make this school better is giving a small break to get a snack for both 8th and 7th and not just 6th graders because 7th graders have lunch pretty early and get hungry easily in the afternoon. What also needs to be improved is the food they serve because it does not really fill up students cause they don't like it and so they will get hungrier faster. The bathrooms here get messy pretty quickly too and so the janitors have more work to do also.

More incentives for the students would make this school better. I feel as if students don't get enough rewards for what they do, and that's what makes them less courageous than they can be.

What would make this school a lot better is if they improve there lunch and give us equipment during reces. Also give us a gym for P.E. But what would mostly make the school better is are lunch.

To start handing out soar tickets, I guess. Maybe an orchestra to go with band. Concerts--oh! Stop making all the sports after school, do people actually know how hard it is to get into after school? Its weird.

The school would be better if we had better ability to obtain the right for our voice to be heard, for example one of my friends entered a saftey report and they called her up to the office after she handled the situation herself.

I think what would make this school better is if we went on more field trips. We could have the kids pay a certain amount of money towards the field trip. The school could sell more stuff like food or have a snack bar and the money could go towards the field trips. For honor lunches they should have something else every quarter instead of the same thing. Also when they give us a treat they could give us something bigger and more , that would encourage students to get even better grades because of the options available during honor lunches. I also think that teachers should give students soar tickets for turning in work or doing a certain something in class instead of something on the soar expectations. Students aren't usually seen doing something form the soar matrix, most of the time kids have a lot of soar tickets, it's because their teachers reward them with them in class and they don't just hand out one, they give several. When the soar cart comes around kids don't even have 10 soar tickets to buy something.

What would make the school better is less drama, teachers stop being so hard on us, principle (s) stop telling us what to do most of the time because to us students it's annoying and it just makes us not listen even more, and adults stop talking most of our freedom.

This school can be better if the yard aids and teacher gave more respect than arguing with students and saying we have no say and then the parent or guardian never knows what happens at school. And when the office knows that a student is have trouble with a kid, not one parent ever gets called but they call for saturdays schools only. Teachers worrying about how other adults see them but then when the student gives disrespect, the teacher also gives disrespect an says more than what they shouldn't have said. Also when a teacher gives disrespect to a student, that student no longer would want to pay attention to the teacher which affects the students grade and parents believe that it's the student that doesn't pay attention. Also yard aids give to much disrespect when a students is smpily saying how they feel and that student get introuble
